

# **BOLLINGER MOTORS**

## **PLM Manager**

As our PLM Manager, you will be leading the team who is hands-on supporting, testing, deploying, and running our PLM suite. As Bollinger Motors grows, you will be the subject matter expert who leads Bollinger's PLM architecture, direction, and strategy. Job duties to be performed in the Detroit, MI area. Compensation based on experience and abilities.

## **Essential Duties and Responsibilities**

- Complete the integration of vehicle systems beginning with the concept design received from Product Line.
- Work with cross-functional teams to understand the end-to-end functionality and impact of PLM within our system.
- Help architect and build Bollinger PLM systems and processes.
- Ensure smooth day-to-day operations of your team and your PLM system.
- Think big in terms of what's possible to build a truly extraordinary PLM system.
- Ability to articulate ideas, give technical feedback, and mentor other team members.
- Leading PLM solutions (Teamcenter, Aras, Arena, etc.) You are familiar with industry-leading CAD solutions (NX, Catia, Solidworks, OnShape, etc.)

## **Education, Skills and Knowledge**

- Bachelor's Degree in engineering and/ or significant professional experience
- 10+ years of working with industry standard PLM systems (Teamcenter, Aras, Arena, OnShape)
- 5+ years as a manager / people leader
- Experience with industry standard CAD systems (NX, Catia, Solidworks, etc.)
- Cloud platform experience (AWS, Google Cloud, Azure)
- Experience working at a startup
